

TEMPLATE

HOW TO MAKE A PITH HELMET & SAFARI JACKET

Parental Supervision Required

1. Glue the template onto a piece of cereal box card. When the glue is dry, cut out the shapes as shown.

2. To create the curve in the helmet rim, rub it over a right angle, such as the edge of a table or chair.

3. Assemble the two sides of the helmet as shown. Start with section '4' at the top, following the guidelines as you work down.

4. Once the glue on the side sections is dry, glue them together, then glue these to the rim, following the guidelines.

5. Dilute a little PVA glue with one part water, one part PVA. Cut thin strips of newspaper. Dip these strips into the glue and lay them over the frame as shown.

6. Once the newspaper strips have dried, you can either paint your helmet or as we have done, cover them with strips of brown paper. The front strap is a strip cut from a black plastic bag and the buckle is a piece of tin foil.

SAFARI JACKET

1. Pin the template to your chosen material and cut out following the guidelines.

2. Fold in the hems and stitch as shown.

3. Fold the garment in half with the hems showing and stitch the sides together as shown.

4. Turn inside out and dress your character.
